

Teaching Strategies and Classroom Management

Course Objective:

To acquaint students with the professional roles and responsibilities of the classroom teacher. Students will participate in classroom observations, interactions, and instruction through the Junior Achievement Program. Classroom activities, such as correcting student assignments and tests, averaging grades, attending parent-teacher conferences, and monitoring student activities and/or field trips may be assigned at the discretion of the classroom teacher in charge.

In-School Field Experience Hours Required:

15 hours of service-learning in appropriate level/subject area specialization (Junior Achievement lessons, small group instruction, test correction, parent-teacher conferences, monitoring student field trips, etc.)
