

PROJECT BRIDGES:

Collaborative Intervention Specialist

Project BRIDGES is an innovative federally-funded project that includes funding for courses leading to a Master of Education in Special Education coupled with a Collaborative Intervention Specialist Graduate Certificate.

The Graduate Certificate for a Collaborative Intervention Specialist emphasizes interdisciplinary preparation of special education teachers and school psychologists to support students with high-intensity needs.

Special Considerations

- Tuition Assistance*
- Cohort Model
- Courses developed to meet National Standards

**Contingent upon federal funding, up to 36 credit hours,
 Service obligation required

Program Expectations

- Collaborative, Interdisciplinary Courses
- Attendance for Face-to-Face courses
- Classroom-based performance tasks
